Just One Typing Takes Care of Your Shipping Order Processing and Shipment Addressing **QUICK! ACCURATE!**

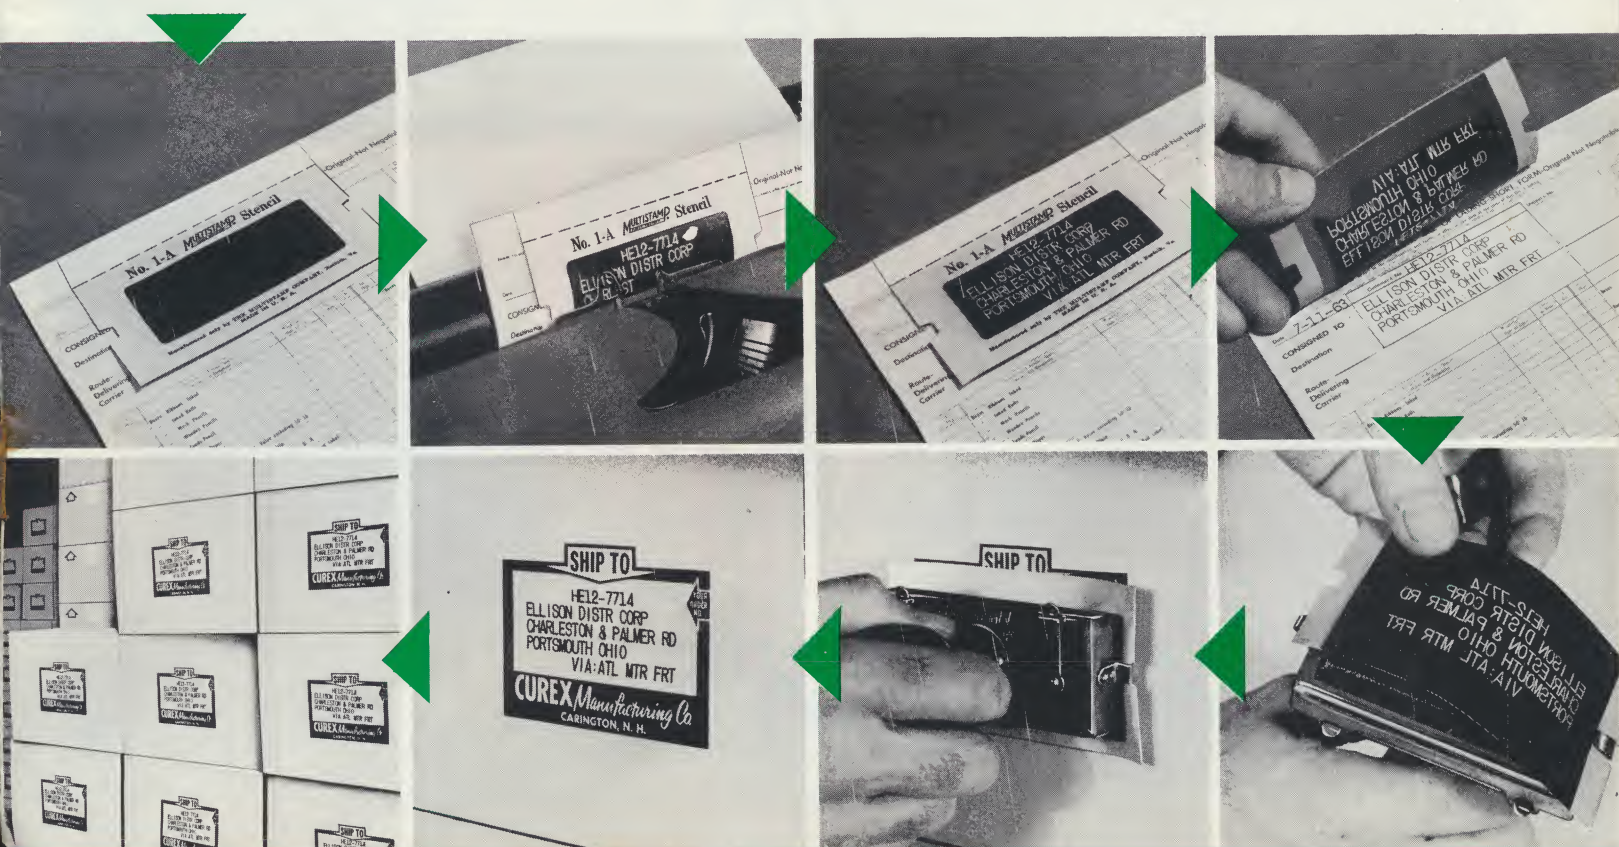

With MULTISTAMP stencil attached to top copy of your set of forms, **one typing** is all that's needed to (1) cut stencil for addressing the shipment, and (2) prepare acknowledgement shipping order, b/l, invoice and other related forms.

Typed impression on a MULTISTAMP stencil (can be written with stylus or ball point pen, if it fits your clerical and shipping system better) is sharp and clear . . . to give hundreds of sharp

and clear prints on cartons. Typed impression on forms is equally clear.

MULTISTAMP stencil detaches easily from form and snaps easily into proper position on MULTISTAMP duplicator . . . held securely by fibreboard frame.

With a touch, every carton in the shipment is addressed legibly, identically . . . each identical to the bill of lading.

RUGGED • LONG WEARING
TO GIVE YOU SHARPEST IMPRINTS

Genuine MULTISTAMP Stencils for duplicator models 1, 1A, 2 and 2A have tough, sturdy frames to guide them safely through the typewriter, and to hold them firmly in place on the flat-type duplicators. For the larger, rocker-type duplicators, models 3, 5, and 7, stencils have full-size backing sheets. Either frames or backing sheets facilitate attaching stencils to the duplicators without smudging fingers.

FOR ADDRESSING

FOR LOT LABELING

FOR OTHER MARKING

Because each order is a custom order, it is important when ordering FORM-CUT MULTISTAMP STENCILS, that you submit copy for us to follow which is as accurate as possible in size and details. We will submit a proof for your final approval before the stencils are die cut. Minimum order, five packages of any one item.

FAST DELIVERY

On initial orders shipment will be made within 10 days of the return of approved proof. Proof is submitted within one week from receipt of order for OK or corrections. Repeat orders shipped within 2 days.

"STOCK FORM" FORM-CUT[®]

MULTISTAMP STENCILS

IMMEDIATE DELIVERY

These stock forms offer the basic element of a custom-made FORM-CUT Stencil . . . that of containing the imprint data within a given area in such way as to attract added attention. They afford a certain uniformity to cartons on which they are used . . . facilitating their handling.

The samples cataloged here are reduced in size. The actual stencils, of course, have the same overall printing area as shown for all stencils on page 6. All are available in either blue or yellow.

NOW .. YOUR Forms (unit or continuous) with Stencils attached .. ready to use!

Sets of multiple forms (like shipping orders, acknowledgements, bills of lading, invoices) are filled in and the stencil for addressing the shipment is cut . . ALL IN JUST ONE TYPING. You are spared the time and expense of taping or stapling stencils to the forms individually. They are delivered to you ready to use.

The stencil is "tipped" (glued) to top copy of each set of forms by a perforated tab. It snaps off easily after typing. The tab size is variable (up to 2-in.), as required to fit the forms.

By working with you and your forms printer (before your forms are reprinted), we can recommend the size MULTISTAMP stencils (and corresponding duplicator) best suited to your use. Printing areas of FORM-FIXT Stencils are identical to other stencils model-for-model. It may be that a nominal alteration of the forms can mean greater efficiency or economy.

If it is desirable to have the imprint on your shipping cartons include some constant information, such as your firm name, a border, "order number," or such, the FORM-FIXT Stencils can be die-impressed with this data. (See story of FORM-CUT Stencils on pages 7 & 8).

We will ship the stencils to your printer, who can attach them to the forms (if he is equipped for this "tipping" operation). Or, you can have your forms sent to us and we'll rush the complete job to you.

YOUR Forms . . YOUR Stencils . . Combined for Speed and Accuracy.

★ HOW TO ORDER FORM-CUT STENCILS

In addition to general stencil ordering information at left, FORM-CUT stencil order must include an exact copy of the form to be reproduced (this also applies to repeat orders), showing size and style of lettering, rules, border, etc. Proof will be submitted only if requested with order. **Minimum order:** Five regular packages (either 24's or 50's) or one Volume-Pak (500).

Charge for typographic composition and preparation for each form (see table at right) applies only on initial order of each form and only on an order of less than 50 regular packs or less than 1,000 stencils in the Volume-Pak. All art work, special lettering, designs, borders, and type styles and sizes other than standard, will be charged extra at cost. **No such charge on orders repeated** without copy change. **No preparation charge** for Stock Form FORM-CUT stencils shown on page 8, and no minimum order required for these stencils, which can be shipped immediately from stock, in the REGULAR and VOLUME-PAK packages shown above. Because of variations in top tab lengths, Stock Forms must be processed to order on FORM-FIXT FORM-CUT STENCILS.
